## Focus Areas

Fullstack Development, Web Development, Software Development, AWS CDK, Information Technology, Content Management Systems, Test Automation, Database Development, Database Management, AI Agent

---

## Core Skills

- **Frontend:** Accessibility, CSS, HTML, JavaScript, NextJS, ReactJS, Redux, TailwindCSS, TypeScript, Angular.
- **Backend:** AWS CDK, ExpressJS, LangChain (AI Agent development), NodeJS, OpenAI API, Python, Rest API, Serverless, Schema validator Joi.
- **Database:** DynamoDB, MariaDB, MongoDB, MySQL, PostgreSQL, Redis, Cloudflare R2.
- **Testing:** Cypress, Jest, Robot Framework, Selenium.
- **DevOps / Cloud:** AWS Amplify, AWS CDK Pipeline, Docker, GHCR, GitHub Actions.
- **Other:** Agile teamwork, Jira, Easy Redmine, Trello, Monday, Slack, Documentation

---

## Experience

### Fiare Oy

Team Lead Front End • Helsinki

11/2021 - 03/2025

Worked as a Frontend Team Lead, responsible for creating and maintaining client-facing web applications, transforming Figma designs into pixel-perfect, responsive, and accessible React interfaces, implementing reusable UI components, integrating them with backend APIs, collaborating closely with designers and backend developers, and training client teams in the use of BOLD CMS tools.

### Integrify

Full Stack Developer • Helsinki

08/2020 - 03/2021

Developed web applications using React, TypeScript, and Node.js, implementing and testing backend logic with Express and PostgreSQL/MongoDB, practicing agile development and pair programming, and creating automated tests using Jest.

### Signant Health

Full Stack Developer Intern • Helsinki

08/2019 - 12/2019

Contributed to building REST APIs using Node.js and Express.js, creating MongoDB database schemas, and performing tasks related to test automation using Robot Framework with the Selenium library, including continuous integration work with Jenkins.
